Art Unit: 1653

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 and 14-17 to an isolated polypeptide, a pharmaceutical preparation comprising the polypeptide and a method of using the polypeptide for the manufacture of medication.

Group II, claim(s) 18-21, drawn to a method of using a polypeptide for coating artificial surfaces and for modifying intraocular lenses.

Group III, claim(s) 6-12, drawn to an isolated polynucleotide, nucleic acid constructs and a method of using the nucleic acid constructs to make a peptide.

Group IV, claim(s) 13 and 22, drawn to an antibody and a method of using an antibody.

Group V, claim(s) 23-25, drawn to an agonist, an antagonist and a method of using an agonist or antagonist for identifying compounds which inhibit a polypeptide.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The polypeptide in claim 1 is known in the art. (US 5,705,355 Tolstoshev et al. (1998)) Tolstoshev et al. teach a polypeptide isolated from H. medicinalis (col.1, lines 22-23) having a molecular weight of about 12,000 kD (col. 2, lines 28-30) with the biological activity of an inhibitor of platelet adhesion (col. 1, lines 65-66). Thus, there is no novel inventive step linking the inventions in Groups I-V and these inventions lack unity.

Application/Control Number: 09/936,737

Art Unit: 1653

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laurie Mayes whose telephone number is (703) 605-1208. The examiner can normally be reached on Monday through Friday from 7 AM to 3:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Low can be reached on (703) 305-2923. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-3014 for regular communications and (703) 305-3014 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1123.
